**J.K. TURNER,
PRESIDENT.**

Denver, Colo. March 23, 1906.

Stanley A. Eaton, Mgr.,

Bunker Hill & Sullivan Mining & Concentrating Co.,

Kellogg, (Shoshone County) Idaho.

Dear Sir:--

Considering the status of labor conditions, (the redoubled effort to organize all mining camps since the arrest of the W.F.M. officials,) we believe as an employer of labor you are naturally desirous of keeping your mines clear of agitators and trouble breeders.

Our Inspection System, embracing educational features, now operated on a large scale, international in scope, promptly and unfailingly uncovers employes who are dishonest, incompetent, extravagant or disloyal to your interests. Superintendents and foremen, being occupied with more important work in managing the business, are often unable to keep their men in line, which is proven daily by new organizations springing up in the various camps. Employes inclined to shirk duty or agitate trouble, are adepts in evading supervision, and can only be discovered and eliminated thru one constantly and directly associated with them.

We furnish PRACTICAL MEN, educated in this work, who report daily and cover all meetings. The successful operations of this company are best appreciated by the number of concerns and Mining Companies known throughout the country as model ones, where everything

#2.

is peace and harmony, working less men and paying dividends.

Our best references are our satisfied clients, who are likewise the most successful Operators in the Mining Business. Write us for particulars on mode of operation, rates and convincing references testifying that the idea promulgated through our System is the natural means of solving this great labor question. A quiet, peaceful, subtle influence; an exigency devised to meet a condition, and successfully practiced for the past nine years, now taking the place of mob rule and violence.

Appreciating the value of time, we do not dwell upon our System, but invite not only inquiries, but criticism.

Soliciting your valued patronage, we remain,

Sincerely yours,

Third Vice President.
